¹Please be cautious when interpreting ABS ratings across fields, as its Methodological Guidelines note, 'readers of the AJG are cautioned against simply counting the number of 3 and 4-rated journals in a particular field, and comparing the result with other fields.' At the same time, other scholars note, 'For instance, the requirements for publication at the ABS-3 rank in entrepreneurship (e.g., Small Business Economics) could be very different than at the same rank in economics (e.g., Journal of Public Economics). Using a non-comparable scale is quite a limitation.'

²ABS 3 in 2010, 2015, 2018, and 2021 versions.
